

DHS FRC Robotics

9/1/2021

Welcome to the 2020/2021 Season

Team Introduction

The DHS FRC Robotics team started with a roar as we have 26 students signed up for the season and the leadership has been announced:

President: Spencer Hopkins
Co-VP: Vance Moore
Co-VP: Robert Patrick
Treasurer: Ayden Mamaghani
Operations: Reece Herman

Mechanical team lead: Cory Griffith
Co-Electrical team lead: Vance Moore
Co-Electrical team lead: Richard Remigailo
Co-Programming team lead: Eli Fellner
Co-Programming team lead: Robert Patrick

And – the club's leaders are:

Team Coach: Paul Spencer
Boosters Club President: Doug McMahon
Teacher Advisor: Rose Thomas

What's Happening

Training

Of the 26 Students on the FRC roster, 13 are new to the team. Each team member has signed up for a primary function on one of the following teams: 1) Mechanical/CAD, 2) Programming, 3) Electrical and 4) Business.

For the students new to the team, they are involved in skills training involving on-line educations, hands on prototyping and on-the-job activities.

Fundraising

The team has decided to focus on three fundraisers this fall:

- 1) Pumpkin sale – Oct 18th through the 31st located at St' Lukes Church.
- 2) Raffle Ticket Sales – date and details to be announced
- 3) Host FLL Robotics championship – Dec 11th.

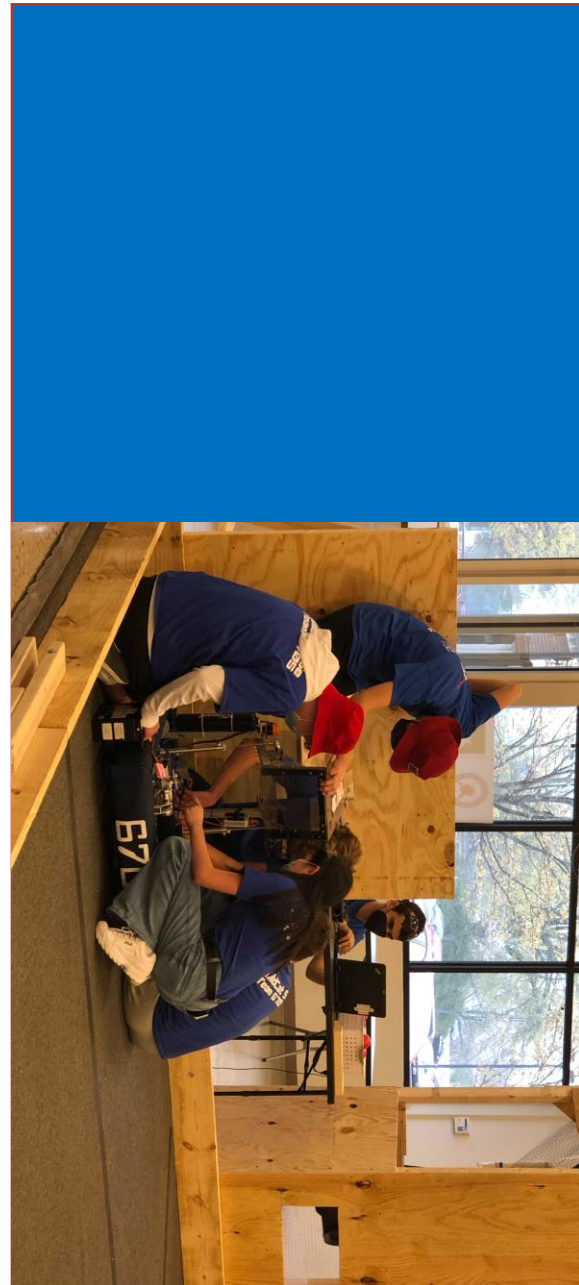

Your support will be needed throughout and thank you in advance.

GRITs

The Georgia chapter of FIRST Robotics will be holding a practice competition in Perry Georgia on Friday Oct 29, and Saturday the 30th. This competition simulates the actual environment that the team will see during our regional qualifiers in March 2022.

Although it will be an in-person competitions, because of continued C19 concerns audience participation has not been finalized and each team will be limited to 12 students per day. The current plan is to have 12 team 6705 students on Friday and then a different 12 students on Saturday so everyone can participate.

More details will be announced as they become available.

Recognition

A DHS FRC Robotics Shout Out to:

- Kim Leick
- Paige Metzger
- Dawn Weterrings

Kim, Paige and Dawn have been great in kicking off the effort for our pumpkin fundraiser. They found the organization that supplies the pumpkins, got St Lukes on board and helped with the Dunwoody permits!

THANKS

Other

As we go through the season your help and support will make a big difference in the success of the team. Here are some of the ways you can help:

- Car pooling (To GRITs and other competition)
- Provide snacks for the students during our meetings
- If you have a technical (mechanical, CAD, electrical, Programming) or business background, spend some time with the students during our build meetings.
- If your company has a matching donation program

Upcoming Schedule

Wednesdays: 5:15 to 7:00PM

Fridays: 3:30 to 5:00PM

Saturdays: 12:00 to 2:00PM

Pumpkin Fundraiser: Oct 18th through Oct 31st. Times to be
Announced

Raffle Ticket Fundraiser: TBD
